- 1. New Guidance and Changes to Website:** Review and Compliance staff have been working hard to update, clarify, and add guidance to our website. Some of the new pages include:

Assessing WWII Subdivisions for Section 106 (guidance on surveying and assessing significance for post World War II residences and neighborhoods):

2. ArchSite

Over the past several months, the ArchSite Steering Committee has taken a number of steps to improve the maintenance and development of the ArchSite application. Principal among these actions has been the hiring of Tamara Wilson to serve as ArchSite Administrator on a part-time basis. As ArchSite Administrator, Ms. Wilson will serve as the primary point of contact (see below) for questions about the application and access issues. The committee appreciates your patience over the past year and over the next few months as Tamara begins to familiarize herself with the application.

If you do not have a current ArchSite subscription, please note that the fee structure for off-site access to ArchSite starting July 1st, 2011 will be as follows:

For-profit firms and organizations

\$600 annual fee

Non-profit, federal, state & local government & educational agencies

\$300 annual fee

Any questions regarding the ArchSite subscription fee should be directed to Tamara Wilson, the ArchSite administrator at (803) 777-9720 or tawilson@mailbox.sc.edu or Jodi Barnes, GIS Coordinator for the State Historic Preservation Office at (803) 896-6181 or jbarnes@scdah.state.sc.us.

3. FCC Section 106 Training

The FCC is offering a free training program on *COMMUNICATIONS TOWERS AND ENVIRONMENTAL/HISTORIC PRESERVATION COMPLIANCE; TRAINING FOR CONSULTANTS* on Tuesday, June 21, 2011 at the FCC HQ at 445 12th St, SW, Washington, DC. The training begins at 9:00 AM and concludes by 5:00 PM. We will cover the FCC NPA and the collocation agreement, use of our electronic filing systems, assessing effects, mitigation measures, public and Tribal involvement, and the preparation of MOA's. The training will be provided by FCC staff with presentations from RUS, NTIA, FEMA, ACHP, a SHPO, and a Tribal representative.
